

The most advanced identity protection available

With our operative-sourced dark web monitoring intelligence, financial transaction monitoring, social media reputation monitoring, and more, we find what others can't. Should fraud or identity theft occur, our in-house Privacy Advocates® are always there to fully restore your compromised identity, even if it occurred prior to enrollment.

IDENTITY & CREDIT MONITORING

✓ Enhanced identity monitoring

Our proprietary monitoring platform detects high-risk activity to provide rapid alerts at the first sign of fraud.

✓ Auto-on alerts

Once we receive your Social Security number, we immediately begin monitoring and alerting.

✓ Dark web monitoring

Our bots and human intelligence operatives scan closed hacker forums for compromised credentials.

✓ High-risk transaction monitoring

PrivacyArmor alerts for non-credit-based transactions like payday loans, student loan activity, and medical billing.

✓ Account activity

You will be alerted to unusual activity on your personal banking accounts that could be a sign of account takeover.

Financial activity monitoring

- ✓ Alerts triggered from sources such as bank accounts, thresholds, credit and debit cards, 401(k)s, and other investment accounts help you take control of your finances.

Social media monitoring

- ✓ PrivacyArmor keeps tabs on social accounts for everyone in the family, watching for account takeover, vulgarity, threats, explicit content, violence, and cyberbullying.

Lost wallet protection

- ✓ Easily store, access, and replace wallet contents. Our secure vault conveniently stores important credit cards, credentials, and documents.

✓ Solicitation reduction

PrivacyArmor will aid you in opting in or out of the National Do Not Call Registry, credit offers, and junk mail.

✓ Digital exposure reports

PrivacyArmor enables you to see what personal information is publicly available on the internet.

✓ Credit alerts

We alert for transactions like new inquiries, accounts in collections, new accounts, and bankruptcy filings.

✓ Access to credit report and score(s)

PrivacyArmor provides annual credit reports and monthly scores from TransUnion.

✓ Data breach notifications NEW

We send alerts every time there's a data breach affecting you so you can take action immediately.

✓ Credit assistance NEW

Our Privacy Advocates will help you freeze your credit files with the major credit bureaus. You can even dispute credit report items from our portal.

✓ Credit lock NEW

You can easily lock credit files for yourself and any family members.

✓ Mobile app NEW

Our mobile app provides core features for you to receive alerts on the go.

CUSTOMER CARE

Our in-house staff of certified Privacy Advocates are available 24/7. With our pledge to treat every caller like a CEO, Privacy Advocates do everything to ensure your identity is fully restored.
