

Welcome to People's United!

People's United offers employees a competitive package of benefits that includes a choice of health plans, valuable life and disability insurance, retirement benefits and various wellness and work/life offerings.

As a new employee, you have 30 days following your first day of employment to enroll in the following benefits:

- **Medical/Prescription Drug**
- **Voluntary Accidental Injury, Critical Illness and Hospital Care Insurances**
- **Dental**
- **Vision**
- **Flexible Spending Accounts**

Your benefits are important. Be sure you take this opportunity to choose the right benefits coverage for you and your family. If you miss your new hire enrollment deadline, you will not have People's United health care coverage this year. You will not have another opportunity to enroll for People's United health care benefits until either the next annual Open Enrollment period (for benefits effective January 1, 2020) or until you experience a permitted election change event, such as a marriage, birth or adoption.
